

# SIGNODE MST-N:

**CE Marked Semi-Automatic  
Strapping Machine**

The smarter way to keep your packages in shape!

**SIGNODE®**

Signode offers wide range of Plastic Strapping Machines. The new CE Marked Semi-Automatic Strapping Machine Model **MST-N** is an ideal solution for your packaging needs as it improves efficiency by significantly reducing manual touch points.

# Applications

**MST-N can be used for packing variety of products, such as corrugated boxes, newspapers, currency notes, corrugated box bundles, tyres of vehicles, oil tins etc.**

- **Shape Retention:** Uniform tensioning all around the package helps retain the shape
- **Elimination of human errors:** Repeatability of tensioning eliminates errors owing to operator fatigue
- **Safer operation:** Heat sealing makes it safer by avoiding the traditional metal clips
- **Cost effective**
- **Higher efficiency:** MST-N matches international quality standards. It takes lesser cycle time increasing number of packs per shift. CE Marked Machine
- **Versatility & Flexibility:** Portability of the Machine ensures versatility and flexibility
